INTERNATIONAL ENGINEERING CONGRESS PAPERS.

THE PURIFICATION OF WATER FOR THE PRODUCTION OF STEAM. PAGE

Paper No. 1.—By J. O. Handy 1

Discussion on the Subject:

By L. M. Booth 35
A. McGill 35
E. H. Peabody 38
F. B. Leopold 39
Hans Reisert 43
G. M. Campbell 49
Fred J. Miller 52
James O. Handy 53

FORTIFICATIONS.

Paper No. 2.—By George W. Goethals 55

LIVE LOADS FOR RAILROAD BRIDGES.

Paper No. 3.—By Henry W. Hodge 77

Discussion on the Subject:

By Alexander Ross 87
Gustav Lindenthal 90
Robert Moore 92
J. E. Greiner 92
C. D. Purdon 96
W. M. Camp 96
Charles S. Churchill 98
Albert Reichmann 103
J. M. Johnson 103
A. F. Robinson 103
Henry W. Hodge 108

MINING ENGINEERING.

Paper No. 4.—THE OPERATION OF MINES IN FRANCE.

By E. Gruner 111

Paper No. 5.—MINING ENGINEERING IN THE UNITED STATES.

By E. Gybbon Spilsbury 121

Discussion on the Subject:

By J. A. Ede 135

HARBORS.

Paper No. 6.—ISLAND HARBOURS AND THE ACCUMULATIONS OF MATERIAL CAUSED BY DETACHED WORKS.

By P. Vedel 137

Paper No. 7.—HARBOURS OF GREAT BRITAIN.

By William Matthews 159

Paper No. 8.—HARBOUR DEVELOPMENT IN HOLLAND.

By H. Wortman 181

Paper No. 9.—MARITIME PORTS OF FRANCE.

By E. T. Quinette de Rochemont 199

Paper No. 10.—THE PREPARATION AND USE OF CONCRETE BLOCKS FOR HARBOUR WORKS.

By I. Hirol 211

Paper No. 10.—THE PREPARATION AND USE OF CONCRETE BLOCKS FOR HARBOUR WORKS.

By I. Hirol 211

PAGE.

Paper No. 11.—CONCRETE BLOCKS AT OSAKA HARBOUR WORKS, JAPAN.
By **S. Shima** 221

Paper No. 12.—HARBORS ON LAKES ERIE AND ONTARIO.
By **Dan C. Kingman** 237

Paper No. 13.—HARBORS ON LAKE SUPERIOR, PARTICULARLY DULUTH-SUPERIOR HARBOR.
By **David Du B. Gaillard** 263

Paper No. 14.—SEACOAST HARBORS IN THE UNITED STATES.
By **Cassius E. Gillette** 297

Paper No. 15.—THE DELAWARE, SANDY BAY AND SAN PEDRO BREAKWATERS.
By **C. H. McKinstry** 325

Discussion on the Subject:
By L. J. Le Conte 339
Lewis M. Haupt 341
W. Henry Hunter 352
P. W. Meik 355
H. H. Wadsworth 356
John H. Darling 361
J. L. Van Ornum 369
Clarence Coleman 370
A. E. Carey 380
E. L. Corthell 381
W. Matthews 384
P. Vedel 384
Cassius E. Gillette 385

ENGINEERING EDUCATION.
Paper No. 16.—By Robert Fletcher 453
Paper No. 17.—By Calvin M. Woodward 483
Discussion on the Subject:
By J. L. Van Ornum 497
D. H. Ray 498
Frank O. Marvin 500
H. N. Ogden 501
Alfred Chatterton 502
Sir William H. White 503
Robert Fletcher 507
Calvin M. Woodward 507

PLATES.

Plate.		Page.
I.	Live Loads for Railroad Bridges, from 1886 to 1894	81
II.	Live Loads for Railroad Bridges, from 1895 to 1903	83
III.	Decapod Locomotive, A., T. & S. F. R. R., 1903	85
IV.	Pillars for Landing Stage at Ymuiden	187
V.	Sinking a Cylinder at Ymuiden	191
VI.	Mattress, Caissons, etc., for Scheveningen Harbour	195
VII.	Titan and Breakwater, Scheveningen Harbour	197
VIII.	Concrete Mixer and Block Making Plant, Otaru Harbour Works	219
IX.	General Arrangement of Block Yard, Osaka Harbour Works	223
X.	Concrete Making Plant, Osaka Harbour Works	225
XI.	General Arrangement for Transportation and Shipment of Concrete Blocks, Osaka Harbour Works	227

PLATE.		PAGE.
XII.	Details of Mortar Mill, Osaka Harbour Works	229
XIII.	Details of Concrete Mixer, Osaka Harbour Works	231
XIV.	Concrete Block Transporters, Osaka Harbour Works	233
XV.	Details of Concrete Block Moulds, Rammer, etc., Osaka Harbour Works	235
XVI.	West Breakwater, Cleveland Harbor	243
XVII.	Timber Breakwater, Cleveland Harbor	245
XVIII.	East Breakwater, Cleveland Harbor; and Harbor of Fairport, Ohio	247
XIX.	Cleveland Harbor; Steamer "Isaac L. Ellwood" and Schooner "Alva Bradley"	259
XX.	Duluth-Superior, Ontanagon and Marquette Harbors	275
XXI.	Grand Marais, Agate Bay, Presque Isle and Ashland Harbors, and Upper Entrance, Portage Canal, Mich	277
XXII.	Cross-Sections of Various Works of Harbor Improvement on Lake Superior	279
XXIII.	Comparative Profiles of Average Depths, Bar at Mouth of Columbia River, Oregon	305
XXIV.	Three Surveys of the Mouth of the Columbia River, Oregon	317
XXV.	Delaware Breakwaters	327
XXVI.	Sandy Bay Breakwater	329
XXVII.	San Pedro Breakwater	331
XXVIII.	Trestle, Crane, etc., San Pedro Breakwater	333
XXIX.	Trestle, Sling Chain, etc., San Pedro Breakwater	335
XXX.	Ocean Face and Harbor Wall of Superstructure, San Pedro Breakwater.	337
XXXI.	Reaction Breakwater at Aransas Pass; and Tree at Rockport, Texas, Showing Prevailing Wind	343
XXXII.	Model of Mouth of Columbia River, Oregon	351
XXXIII.	Handling Large Concrete Moulds, Duluth Superior Harbor	373
XXXIV.	Traveling Derrick, and Moulds for Large Blocks, Duluth-Superior Harbor	375
XXXV.	Concrete Mixer, Cement Elevator, etc., Duluth-Superior Harbour	379
XXXVI.	Method of Placing Isolated Monoliths of Superstructure, Duluth-Superior Harbor	381
